(if you're not bringing your cell phone) |
|--|---|

Don't over pack! You don't need a lot. Use your job assignment as a guide for what you bring. For example, in the kitchen we wear closed-toed shoes, long pants, and T-shirts. On hikes, hiking counselors are required to wear hiking boots. If you are a general counselor you want to be prepared for all program areas such as hiking, riding (if you know how to ride), sports, river rafting, etc. **Leave at home:** TVs, hand-held video games, axes, hunting knives, guns, or anything of great personal value.

Mark your name on all clothing and personal items!

CAMP STORE:

We have a great selection of Cheley sweatshirts, T-shirts, hats, water bottles and other personal items and camping gear.

WEATHER/CLIMATE:

Our days are generally in the 70's to 80's, yet may be considerably cooler (40's) when a cool weather pattern moves through. The nights are much cooler (50's to 60's), requiring a sweater or jacket in the evenings. It is important to bring clothes adequate for the warm days, but be sure to bring sufficient warm clothes for those unusually cool times.
