

# **Immunization** Certificate of Nonmedical Exemption

Colorado law C.R.S. § 25-4-902 requires all students attending any school in the state of Colorado to be vaccinated against certain vaccine-preventable diseases, as established by Colorado Board of Health rule 6 CCR 1009-2, unless an exemption is filed. This law applies to students attending public, private and parochial kindergarten, elementary and secondary schools through 12<sup>th</sup> grade, colleges or universities, and child care facilities licensed by the Colorado Department of Human Services including child care centers, school-age child care centers, preschools, day camps, resident camps, day treatment centers, family child care homes, foster care homes, and Head Start programs. "Nonmedical exemption" means an immunization exemption based upon a religious belief whose teachings are opposed to immunizations or a personal belief that is opposed to immunizations. Prior to kindergarten, a nonmedical exemption must be filed each time a student is due for vaccines according to the schedule developed by the ACIP.<sup>1,2</sup> From kindergarten through 12<sup>th</sup> grade, a nonmedical exemption must be filed every year during the student's school enrollment/ registration process.<sup>1</sup> Students with a recorded immunization exemption may be kept out of a child care facility or school during a disease outbreak; the length of time will vary depending on the type of the disease and the circumstances of the outbreak.
